

Quality Control Analyst

- Full time, permanent role
- Competitive salary
- Benefits package

Protexin® Careers

This is an excellent opportunity to join one of the fastest growing companies in the industry, and be part of an exciting and growing Quality team.

We are seeking an enthusiastic Quality Control Analyst to join our team, this position will be required to work shifts including 6.00am – 2.30pm, 8.30am – 5.00pm, 5.00pm – 2.30am and approximately 1 Saturday in 5. Applicants must have flexibility to work shifts as required.

As a Quality Control Analyst you will be responsible for quality standards throughout the production process including sampling of raw materials and finished products, calibration of equipment, swabbing of equipment and facilities and ensuring all products are produced to the highest standard and in accordance with standard operating procedures.

In addition you will work within our analysis suite preparing media and samples, and conducting microbiological tests on raw materials and product samples and processing test results accurately.

The ideal candidate will have experience in a pharmaceutical or food manufacturing environment, have a proactive and enthusiastic approach to work, with high levels of attention to detail and good organisation skills. Candidates must be computer literate and able to demonstrate good levels of numeracy and literacy skills.

Your contribution will be rewarded with a competitive salary and a range of benefits including contributory pension scheme, healthcare, 28 days annual leave plus bank holidays and a childcare voucher scheme.

To apply for this position, please send your CV plus a covering letter with details of your current salary to Keelie Chapman by Friday 17th November 2017.
