

Bio-Kult®

Bio-Kult has a winning start to 2011

Bio-Kult, the well known probiotic brand has won “**Best VMS Product**” in the CAM (Complementary Alternative Medicine) awards 2010, for their unique multi-strain probiotic Bio-Kult Candéa.

Bio-Kult Candéa from Protexin is a probiotic supplement with added garlic & grapefruit seed extract. Taken daily it can help strengthen the body's natural defences against *Candida* overgrowth and may help to prevent it changing from its yeast-like form to the invasive filamentous fungus form. Bio-Kult Candéa contains seven strains of probiotic bacteria to reinforce the gut microflora, helping to prevent *Candida* from finding sites in the gut to grow, they also lower the gut pH so that *Candida*, which prefers a more alkaline environment cannot thrive. The supplement also contains garlic & grapefruit seed extract . proven natural antifungals.

Visit www.bio-kult.com for more information.

We are delighted to have been awarded Best VMS Product 2010 for Bio-Kult Candéa by CAM readers.

We read CAM without fail every month and feel honoured that readers have taken the time to vote for us.

Thank you.+

Lizzie Hardy . Head of Marketing

Note to Editors: Further Information

Protexin Healthcare are manufacturers of Bio-Kult, a unique multistrain brand of probiotic products, expertly formulated to help the digestive and immune systems, which are closely linked to our optimum health. The beneficial bacteria in Bio-Kult help to re-establish and re-balance the gut microflora. The supplements can help with specific conditions such as: antibiotic associated diarrhoea, traveller's stomach, atopic dermatitis, leaky gut syndrome, irritable bowel syndrome (IBS) and inflammatory bowel disease (IBD). Bio-Kult is suitable for vegetarians which can be swallowed whole or pulled apart and mixed with food/drink. Also available - Bio-Kult Candéa, a probiotic supplement with added grapefruit seed extract and garlic - taken daily it can help strengthen the body's natural defences against Candida.

Bio-Kult, Bio-Kult Candéa and Protexin are registered trademarks of Probiotics International Limited

Probiotics International Limited are dedicated to producing innovative research based products of the highest quality for humans and animals under the brand name Protexin.

Our belief is that nature is an ideal source of effective healthcare solutions, and that applied research and understanding can harness these solutions to the benefit of both humans and animals. That's why all products that carry the Protexin name are developed under our guiding philosophy - ***science and nature in balance.***

In practice this means that the natural healthcare and probiotic supplements we manufacture are extensively researched for safety and efficacy. We work closely with leading universities, hospitals and research centres around the world on a range of ongoing research programmes. We are always looking to improve our products, but never compromise on their natural basis.

Every product produced by Protexin is manufactured in our own purpose built, state-of-the-art facility in Somerset, UK. This allows us to be completely in control of our commitment to the highest quality standards. All products are subject to the same high standard of production and quality control as pharmaceutical products.

You can be confident that whether you buy a Protexin product for yourself, your family or your animals, you are getting the highest quality, natural products backed by effective science.
