

## Microbiology Placement

- Industrial Student or Graduate Placement (up to 12 months)
- Full time paid position
- 25 days holiday plus bank holidays pro rata Benefits package

# Protexin® Careers

This is an excellent opportunity for an Industrial Placement student or recent graduate to join one of the fastest growing companies in the industry and gain invaluable experience of the workplace. Based at our head office in Somerset you will work closely with our Company Microbiologist and Quality Control team, gaining invaluable knowledge within a cGMP (MHRA) accredited company, based in state of the art, purpose built facilities.

### Main responsibilities include:

- Microbiological analysis of samples.
- Assist in the development, verification, and validation of novel methods.
- Write scientific reports, including the statistical analysis of data.
- Complete training in laboratory procedures.
- Present the findings of projects to stakeholders.
- Accompany the Company Microbiologist to relevant meetings, audits, and industry events.

### Essential candidate skills:

- Excellent attention to detail, and ability to work with a high level of accuracy and precision
- IT literate with good level of Microsoft Excel and Word
- Strong communication and interpersonal skills to develop relationships with colleagues throughout all levels of the organisation
- Curiosity in the field of probiotics with the desire to enhance knowledge
- Affinity for problem-solving and innovation
- Driven and self-motivated

### Candidate qualifications:

- The ideal candidate will be studying for or completed a Microbiology Degree, or other degree where microbiology forms part of the curriculum.

To apply for this opportunity, please send your CV plus a covering letter to Claire Rowsell – HR Manager [recruitment@protexin.com](mailto:recruitment@protexin.com)
